

MEDAMA

MEDAMA POWER STRIP

Medama Power Strip is a remover formulated specifically for removal of catalyzed urethane finishes.

- ◆ Pre-diluted semi-paste for immediate use or reduce with water for lighter-duty jobs
- ◆ Effectively remove up to 100 coats of acrylic finish in ONE application
- ◆ Does not damage manufactured floors
- ◆ Rapid strip-out time (30-60 minutes)
- ◆ Breaks and lifts the bonded finish from the floor
- ◆ Very low odor
- ◆ Zero VOC's, per Consumer Goods Regulations
- ◆ Low amine, NON-CORROSIVE; pH <10.5
- ◆ DOT Non-Regulated = Lower freight costs
- ◆ Medama Power Strip will not 'dry-out' like typical floor strippers, can even dwell on floor overnight
- ◆ Will not yellow the surface(s)
- ◆ Easily clean up with Medama Pre-finish Wash
- ◆ Fragrance and dye free
- ◆ Coverage approximately 100-1000 SF/gallon (RTU or diluted 10:1)
- ◆ Medama Power Strip when used with the Medama Pre-finish Wash, is designed to remove the most stubborn permanent polyurethane coatings in one single stripping cycle without noxious fumes or large quantities of water (can be used RTU or 1:1)
- ◆ Medama Power Strip can also remove fifty plus coats of traditional finish in one single stripping cycle when mixed one part Power strip to eight parts water
- ◆ Medama Power Strip can even remove the saniglaze type coatings from bathroom floors
- ◆ When you have coatings that can normally take hours to strip, can now be done in less than an hour with Medama Power Strip and Medama Pre-finish Wash
