

# MEDAMA

## MEDAMA PRE-FINISH WASH

**Medama Pre-finish Wash** is a cleaner designed specifically for cleaning before and after urethane floor finishes are applied. Medama Pre-finish Wash is a very effective and versatile multi-purpose cleaner. Use for heavy soiled or light daily cleaning without leaving chemical residue.

### Medama Pre-finish Wash Advantages:

- Surfactant Free - No Residue will remain
- Safe for use on acrylic or urethane floor finishes
- Quickly removes traffic pattern yellowing caused from other cleaning chemicals
- Excellent 'spot cleaner' for use under hand sanitizer stations
- Use Medama Pre-finish Wash with a flat mop or in auto scrubbers - it will not foam up
- Use after any chemical stripping or before applying any Medama finishes
- Very low odor
- No perfumes or dyes added
- No water rinse needed after daily cleaning

### Product Uses:

- Heavy Soiled - 4 oz. per gallon of water
- Light daily use - 1 oz. per gallon of water
- Before finishing new VCT - Mix 1:4 with water to remove factory finish
- After Medama Power Strip - Mix 1:4 with water to re-activate Medama Power Strip for additional stripping power and use to remove Medama Power Strip solution off floor
- After chemical strip-out - Mix 1:4 with water, to aid in clean-up. Follow up with 1-4 oz. in per gallon of water with final rinses
- The uses are endless
